37023...

Destined eventually to go to the Pontypool & Blaenavon Railway for preservation 37023 was removed from Brush Traction at Loughborough by road this afternoon to Allely's, Studley at where cosmetic restoration is to be undertaken.

37401...

Out again. 37401 (WNTR) went on a jolly from Bescot to Long Marston and back today with a rake of vans.

**02/10/08**

EWS 37s...

37401 and 37417 (both WNTR) have now been retired to store at Eastleigh, stored serviceable, following transfer south from Bescot. There is still a lot of talk regarding occasional returns to traffic if / as / when required, the Scottish snowplough contract and booked railtour commitments being the most prominent scenarios however there is also talk about that being it and no more Tractor action under the EWS banner. So for now they are in the bin but only time will tell if the lid stays on...

Tugs to return...?

A bit of a punt as to which Class 60s are currently in line for reinstatement; 60004 60011 60019 60022 60027 60033 60037 60038 60050 60055 60061 60066 60067 and 60080. This is by no means a definitive or exhaustive list as some of the above may not return and others may.

Spoon 709...

47709 (XHHP) has been released from RVE Derby being hauled away from the RTC by 37607 which had earlier brought 47712 in from Crewe.

**04/10/08**

08921...

Another Class 08 has arrived at Wigan Springs Branch (CRDC) in the shape of 08921 (WSSN). On site now for attention are 08662 (WSSN) 08897 (WSSN) and 08921 along with the resident demic / pilot 08877 (WSXX).

47709...

On an A exam at Kingmoor following transfer north on the 2nd 47709 (XHHP) is being readied for a return to traffic.

9016...

Expressions of interest are in and it's future is being evaluated.

### 06/10/08

Three Tugs and a Skip...

60038 60055 and 60095 along with 67008 have been reinstated, to WFMS, WFMS, WCAN and WAAN respectively, from store at Toton.

37677...

After spending quite some time tucked away out of sight at Booths, Rotherham 37677 has been positioned into the cutting area ready for disposal.

37682...

Collected from Barrow Hill today 37682 (XHHP) was taken north by 37602 on transfer to Kingmoor via the North East. Problems encountered in the Church Fenton area saw its transfer being curtailed at York pending an inspection.

EWS 37s...

It would appear that some / a couple of examples are to be returned to use in due course...

9016...

The Gordon Highlander Preservation Group have, in a news update on their website, acknowledged that they have been unsuccessful with their bid to purchase 55016 from HNRC. As they are on record as having bid in the region of £70K for it and having been outbid then its looking very much like the locomotive is subject to some bigger offers which certainly implies that it is now safe from being pulled apart for spares.

### 07/10/08

EWS 37s and ex EWS 37s...

37401 and 37417 at Eastleigh have been reinstated, both to the WFMU pool from WNTR. 37683 being repaired for DRS at Barrow Hill has been re-registered and allocated to XHHP whilst 37413 (WNSO) has been dragged out of the scrap line at Margam to be prepared for transport away into preservation.

59101...

There was a mishap on the Whatley branch yesterday with 59101 and GM switcher 120 colliding after the latter ran away. Both locomotives have been damaged.

Moves pending...

Besides 37413 mentioned above 47703 (CREL) is due to be brought down from the Wensleydale Railway to Barrow Hill, 37682 (XHHP) is to be returned to Barrow Hill from York, probably by road. 56311 (RVLO) is booked for transport from Derby back to Wansford and 92037 (WNTS) is awaiting movement up to Crewe from Dollands Moor.

**08/10/08****EWS 37s...**

Moved up to Warrington overnight from Eastleigh 37401 and 37417 (both now back to WKBN) re-entered traffic with this morning's Warrington to Blackburn and back workings before being despatched east at the head of an Immingham service.

**37682...**

In readiness for collection and movement back to Barrow Hill by road 37682 (XHHP) has been taken on to York Works from where it can be loaded for transfer.

**9016...**

DRS have released a press statement confirming that they have purchased 55016 (MBDL) from HNRC and that it will be receiving repairs, probably at Barrow Hill. At least now this year's worst kept secret is official...

"Direct Rail Services can confirm that it has recently acquired 55016 (D9016) named 'Gordon Highlander' from Harry Needle Railroad Company (HNRC). The future of this locomotive is secure and the company is working with HNRC to return the locomotive to operational condition. Although this locomotive has not been planned for an immediate return to service, DRS is confident that the locomotive will be returned to mainline service in the future. DRS is intending to retain the name 'Gordon Highlander'. DRS can confirm that as part of a wider commercial agreement that will see further locomotives being refurbished by HNRC."

**92037...**

Noted on its way north on a low loader this afternoon 92037 (WNTS) has left Dollands Moor for Crewe.

**47580...**

Due out on test tomorrow 47732 (47580 MBDL) is to take a spin from Tyseley to Oxford and back.

**Spanish 37s scrapped...?**

Confirmation required but it has been advised that 37702 and 37888 have been broken up in Spain. Can anyone confirm / supply further details?

**09/10/08****92s...**

92037, recently moved up to Crewe from Dollands Moor, has been reinstated to the WFMU pool swapping places with 92029 which has been stored WNTS from WFMU.

**37510...**

From store at Carlisle Kingmoor 37510 has been reinstated to the XHNC pool.

**Toton 20s...**

Toton is hosting a pair of active Class 20s for the first time in well over a decade with 20901 and 20905 (both HNRL) fresh from testing at Old Dalby visiting the depot today.

**EWS Locomotive Sale...**

Shed news...

Ex DRS 66s; 66401 66402 66403 66404 and 66405 (all XHIM) have run from Carlisle to Leeds Midland Road on transfer to Freightliner. They are to be stopped for modifications and are to be stored until the commencement of some freight flows they have been earmarked for, it has been advised. 66586 (DFHG) has also been stopped at Leeds Midland Road, to be modified for use in Poland. At Toton 66131 (WFMU) has been seeing use as depot shunter whilst the next boatload across the pond is to contain some Class 66s for Freightliner, some for DRS and the last one for Fastline.

EWS notes...

60052 has been stopped and stored WNTS at Toton, it was briefly WFMU, whilst 90039 has been reinstated to WFMU from WNTR at Crewe EMD. 37799 and 37801 in Spain, along with a number of Class 08s stored in the UK, all recently offered for sale have been reallocated to WNXX from variously WNTS, WNYX, WZKS and WZTS.

86609...

Another for the suspect list, 86609 (DFNC) caught fire in Crewe Basford Hall yard yesterday.

**17/10/08**

More shed news...

37412 & 37603...

37603 has been reinstated from XHHP to XHNC, the first returnee of the three recently out-shopped by Brush Traction. 37412 (WNSO) is still at Margam awaiting removal by road, apparently the delay has been due to H&S issues / fanatics rather than anything mechanical.

31106...

Sidelined at Derby for some time 31106 (RVLO) is ready to return to traffic.

87s to go...

The transfer of 87010 87022 and 87028 (all SBXL) from Crewe LNWR to Crewe Basford Hall for road movement onwards is imminent. Transfer from Crewe to Hull by road for export is set to get underway late next week.

**18/10/08**

87s...

87010 87022 and 87028 (all SBXL) have been moved round from Crewe LNWR to Basford Hall, top and tailed between 66506 and 66616 in the early hours, from where they can be transferred across to Hull by road.

Resistance is futile...

The next batch of Class 66s, comprising 66302 66431 66432 66433 66434 66954 66955 66956 and 66957, are on their way.

Several stored locomotives have been on the move today. 37682 (XHHP) has been released from Barrow Hill again, today hauling 47841 (XHHP) from Barrow Hill to Kingmoor whilst 47790 (XHHP) has been removed from Brush Traction leaving Loughborough in convoy with 20309 (now XHNC) and 37218 behind 37603. 47790 has been deposited at Derby RTC.

37413 (WNSO) has been taken north, moved up the WCML in the consist of today's 6S73 service behind 92017 to Mossend. 37413 is to remain at Mossend until 37403 (WNSO), also now Bo'Ness bound, is brought north from Margam, it is being prepared for transit. It is planned to trip 37413 and 37403 to Bo'Ness together.

37412 (WNSO) is still in Margam Yard awaiting movement north by road which now looks set to take place next week. 37412 is to go to Barrow Hill -

had been keeping news about its future under wraps until it left South Wales but it's been delayed that long that every man and his dog along with the next crop of magazines all have the story - for repairs and a return to use with DRS, HNRC having secured 37412 from EMR, the original buyer from EWS. 47703 (CREL), another one for a coat of blue and big stickers, is now to be moved south from the Wensleydale Railway to Barrow Hill by road. Its transfer should be taking place next week.

The first transfers by road of the Class 87s from Crewe to Hull looks set to take place on Sunday (26/10) with, it has been indicated, two to be taken across for export.
