66406 - 66410...

The five ex DRS Class 66s recently deposited at Glasgow Works have now been stored SBXL.

Grids on the go...

Three more Class 56s have been moved north from Wembley with 56069 56087 and 56106 (all WZGF) being observed at Warrington.

Bones re-arranged...

The EWS Class 58 fleet has been partially re-organised to cater for the forthcoming hire contract in France which requires 24 locomotives. Added to the current WZFF fleet are 58001 and 58042 from WNXX, 58021 from WZFS, 58005 58006 58013 and 58026 from WZTS along with 58036 from WZFH. Removed from the WZFF allocation is 58016 which is transferred to WZTS as are the remaining stored Class 58s, probably the worst condition examples, which have all been reallocated from WNXX to the Axiom WZTS holding pool.

WZFF: Class 58 France, 21 allocated, all in the UK

58001 58004 58005 58006 58007 58009 58010 58011 58013 58018 58021 58026 58032 58033 58034 58035 58036 58040 58042 58046 58049

WZFH: Class 58 Holland, 3 allocated, all in Holland

58038 58039 58044

WZFS: Class 58 Spain, 12 allocated, all in Spain

58015 58020 58024 58025 58027 58029 58030 58031 58041 58043 58047 58050

WZTS: Class 58 Axiom Stored, 14 allocated, all in the UK

58002 58003 58008 58012 58014 58016 58017 58019 58022 58023 58028 58037 58045 58048

The three outstanding to bring the WZFF fleet up to the required level of 24 will probably be 58038 58039 and 58044, the WZFH trio, which are to be / are being released from hire in Holland.

Barrow Hill 37s...

37029 has been restarted and 37683 (XHHP) was being load bank tested today.

Hanson Traction / Colas 56s...

56311 (now HTLX) is still leading the loaded turns from Immingham as it hasn't been possible to swap the pair around at Immingham, this is now to be carried out at Washwood Heath prior to the resumption of operations next week. The deployment of 56311 and 56312 to this flow is (presently) for four weeks (including last week).

22/11/08

Grids & Bone on the move...

56069 56087 and 56106 (all WZGF) have been moved south from Warrington to Crewe, they have joined 56031 56038 56065 and 56078 (all WZGF) on the down holding sidings adjacent to Crewe DMD, meanwhile 56091 (WZGF) and 58035 (WZFF) have been tripped across from Wembley Yard to Eastleigh.

37712...

Whilst heading south with an ECS from Carnforth this afternoon 37712 (MBDL) had to be stopped at Crewe with an internal fire. 47769 was commandeered to forward 5Z47 forward from Crewe whilst 37712 has been sent back to Carnforth for assessment, 47245 being despatched south to collect it.

57314...

The second 57/3 for Arriva treatment looks to be 57314 (ATTB).

25/11/08

86212...

Hauled by 66727 this morning from East Ham to Warwickshire 86212 (SAXL) has joined the rest of the Phoenix Rail Class 86s at Long Marston.

37029...

On test 37029 has been observed 'traversing' the branch at Barrow Hill.

DFFT 66s...

A closer look at the three Class 66 Freightliner have reallocated to the DFFT pool, a revision as this pool has been used before, it is now for Freightliner 66s on route learner duties, reveals that 66502 is out of use at Crewe pending a trip to Glasgow for straightening out, 66536 is being utilised for route learning duties but is on worn wheelsets whilst 66587 has, it has been advised, been stopped for the fitment of a small auxiliary engine. 66537 (currently DFGM) could be a candidate for transfer to DFFT as this one is on worn wheelsets.

DRS fleet increased...

37601 and 47832, both from XHHP, from Crewe Gresty bridge and Carlisle Kingmoor respectively, have been reinstated to the XHNC pool.

EWS fleet decreased...

Slack in the Class 60 fleet, most were stopped and allocated to the WFMU pool anyway, has been taken up with the transfer to WNTS and store of 60005 60017 60019 60028 60045 60051 60055 60061 60071 60073 60075 60077 60079 and 60095. WFMS allocated 60019 and 60061 hadn't seen action following reinstatement to WFMS last month and earlier this month respectively and these two have been returned to WNTS. This reduction leaves the Class 60 fleet split in two with 50 in traffic and 50 in store.

It has been indicated that 31452 is no longer regarded as part of the operational fleet.

30/11/08

Tugs...

Two out, two in. 60019 and 60045 have been reinstated, both to WCAN. 60019 was noted in traffic a couple of days ago. Their places in storage have been taken by 60013 and 60042, both have been stored WNTS.

66502...

Noted in the sidings to the south of LNWR 66502 (DFFT) piped up which may indicate it's ready for transfer north from Crewe to Glasgow.

20142...

Due to leave the Llangollen Railway in December a farewell jolly has been arranged for 20142 on the line for December 7th.
